# United States Antimony Corporation Announces Participation at NobleCon20 Annual Emerging Growth Equity Conference

## *"The Critical Minerals and ZEO Company"*

**THOMPSON FALLS, MT / ACCESSWIRE / December 2, 2024** / United States Antimony Corporation ("USAC", or the "Company"), (NYSE American:UAMY) announces today that management is participating at NobleCon20 - Noble Capital Markets' Twentieth Annual Emerging Growth Equity Conference to be held at Florida Atlantic University, Executive Education Complex, in Boca Raton, Florida. The Company will be presenting on Tuesday, December 3, 2024 at 10:00 am Eastern Standard Time.

On behalf of the Company, Gary C. Evans, Chairman and Co-CEO, will deliver a new company presentation followed by a Q&A session. Members of the Company's management team will also be holding one-on-one investor meetings throughout the conference.

A high-definition video webcast of the presentation will be available the following day on the Company's website under the Investors tab at: <https://www.usantimony.com/investors>, and as part of a complete catalog of presentations available at Noble Capital Markets' Conference website: [www.nobleconference.com](http://www.nobleconference.com) and on Channelchek [www.channelchek.com](http://www.channelchek.com) the investor portal created by Noble. The webcast will be archived on the NobleCon website, and on Channelchek.com for 90 days following the event.

### **About USAC:**

United States Antimony Corporation and its subsidiaries in the U.S. and Mexico ("USAC", the "Company", "Our", "Us", or "We") sell processed antimony, zeolite, and precious metals products in the U.S. and Canada. The Company processes antimony ore primarily into antimony oxide, antimony metal, and antimony trisulfide. Our antimony oxide is used to form a flame-retardant system for plastics, rubber, fiberglass, textile goods, paints, coatings and paper, as a color fastener in paint, and as a phosphorescent agent in fluorescent light bulbs. Our antimony metal is used in bearings, storage batteries, and ordnance. Our antimony trisulfide is used as a primer in ammunition. In its operations in Idaho, the Company mines and processes zeolite, a group of industrial minerals used in soil amendment and fertilizer, water filtration, sewage treatment, nuclear waste and other environmental cleanup, odor control, gas separation, animal nutrition, and other miscellaneous applications. We recover certain amounts of precious metals, primarily gold and silver, at our plant in Montana from antimony concentrates.

### **Forward-Looking Statements:**

Readers should note that, in addition to the historical information contained herein, this press release may contain forward-looking statements within the meaning of, and intended to be covered by, the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such

forward-looking statements are based upon current expectations and beliefs concerning future developments and their potential effects on the Company including matters related to the Company's operations, pending contracts and future revenues, financial performance, and profitability, ability to execute on its increased production and installation schedules for planned capital expenditures, and the size of forecasted deposits. Although the Company believes that the expectations reflected in the forward-looking statements and the assumptions upon which they are based are reasonable, it can give no assurance that such expectations and assumptions will prove to have been correct. The reader is cautioned not to put undue reliance on these forward-looking statements, as these statements are subject to numerous factors and uncertainties. In addition, other factors that could cause actual results to differ materially are discussed in the Company's most recent filings, including Form 10-K and Form 10-Q with the Securities and Exchange Commission.

Forward-looking statements are typically identified by words such as "believe," "expect," "anticipate," "intend," "outlook," "estimate," "forecast," "project," "pro forma" and other similar words and expressions. Forward-looking statements are subject to numerous assumptions, risks and uncertainties, which change over time. Forward-looking statements speak only as of the date they are made. Because forward-looking statements are subject to assumptions and uncertainties, actual results or future events could differ, possibly materially, from those anticipated in the forward-looking statements and future results could differ materially from historical performance.
